# 1. Organisation Overview

## 1.1 Name

**SWEET CRUMBS BAKERY**

## 1.2 Brief History

**SWEET CRUMBS BAKERY is a business owned by a family that is located in Johannesburg, South Africa. In 2022 Sarah Mokoena established it to provide affordable and fresh baked goods to the local community . The bakery specialises in cupcakes, cookies, bread, cakes and custom celebration cakes. It has built a loyal customer base through quality products and excellent customer service ,over the years.**

## 1.3 Mission and Vision

**To provide high-quality and fresh-baked goods and excellent customer services at prices that are affordable prices .**

- **To become one of Johannesburg most trusted local bakeries and expand to serve customers across South Africa.**

## 1.4 Target Audience

- Adults between 18 and 60 years old looking for fresh baked goods.
- Families ordering birthday and celebration cakes
- Businesses and event organisers requiring baked products for meetings and events

# 2. Website Goals and Objectives

## 2.1 Specific Goals

Highlight the bakery's offerings on the web.

Enable customers to inquire about cakes and submit custom orders.

Enhance the bakery's visibility online.

Facilitate easier communication for customers to reach the bakery.

## 2.2 Key Performance Indicators (KPIs)

Get 40 online inquiries each month.

Boost website traffic by 25% over the next three months.

Obtain 20 custom cake orders monthly through the website.

# 3. Current Website Analysis

**Sweet Crumbs Bakery currently does not have an official website. Customers mainly find the bakery through Facebook, WhatsApp and word of mouth.**

## 3.1 Strengths

Through WhatsApp, customers can communicate.

The bakery regularly uploads photos of products on Facebook

## 3.2 Weaknesses

Customers cant  place online enquiries using a website.

Business information is spread across different platforms.

No online product catalogue.

No professional online presence.

## 3.3 Opportunities for Improvement

Develop a professional website.

Display all products in one place.

Add an enquiry form for cake orders.

Include customer reviews.

Display contact details and business hours clearly.

# 4. Proposed Website Features and Functionality

Home

The homepage will welcome visitors, display featured products, promotions and a button allowing customers to enquire about orders.

About Us

This page will explain the bakery's history,  vision, mission, and introduce the bakery team.

Products

Products will be organised into categories including cakes, cupcakes, bread, cookies and pastries. Each product will include an image, description and price.

**Enquiry**

Customers will complete a form containing:

Full Name

Email Address

Phone Number

Cake Type

Event Date

Message

Contact

This page will contain:

Phone Number

Email Address

Physical Address

Business Hours

Google Maps Location

Facebook and Instagram links

## 5. Design and User Experience

### 5.1 Colour Scheme

Pink (#F8BBD0) – Represents sweetness and friendliness.

Brown (#8D6E63) – Represents baked goods and warmth.

Cream (#FFF8E1) – Gives the website a welcoming appearance that is clean

### 5.2 Typography

Headings: Poppins because its easy to read and  modern.

Body Text: Arial because it is simple and readable.

## 5.3 Layout and Design Approach

The website will have a c modern and clean  layout with simple navigation. Large images of bakery products will be displayed to attract customers. Important buttons such as "Order Now" and "Contact Us" will be easy to find.

## 5.4 User Experience Considerations

Simple navigation menu.

Mobile-friendly design.

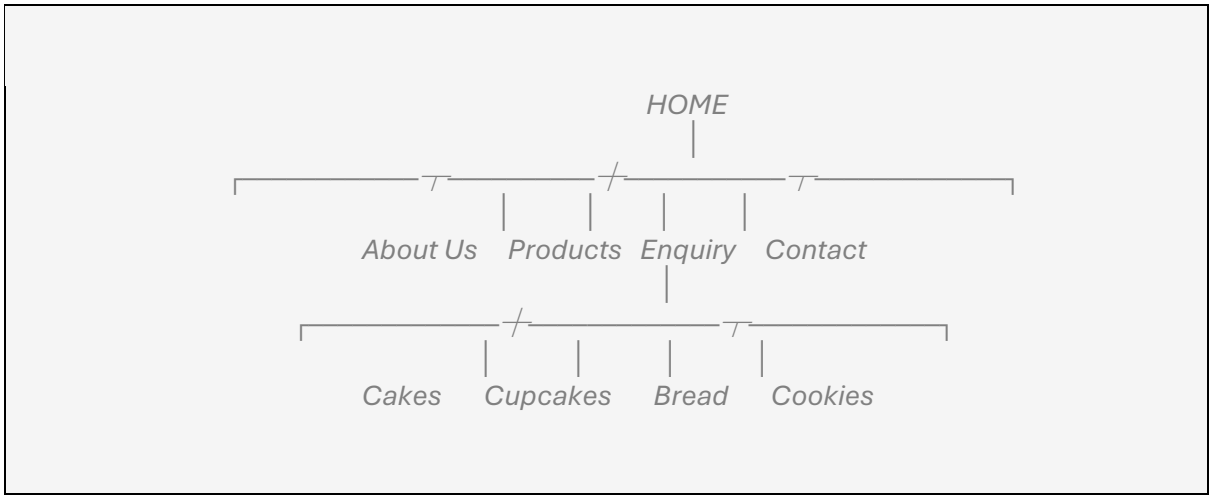

Fast loading pages.

Easy-to-read text.

Clear buttons for enquiries.

## 5.5 Sitemap

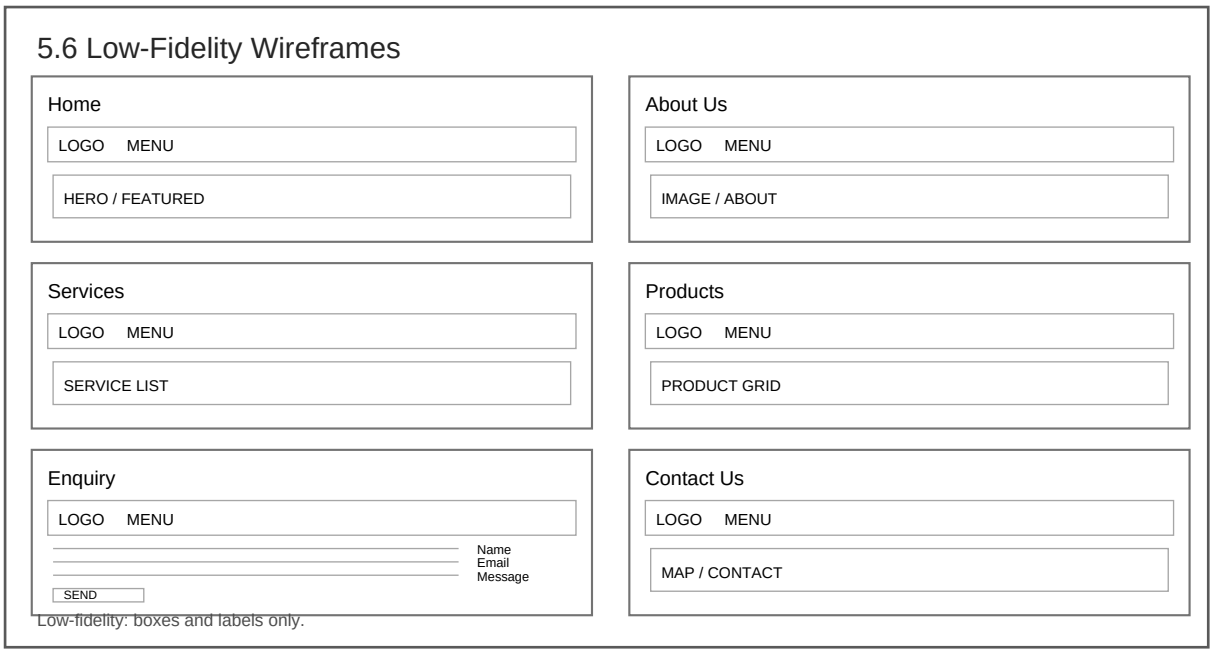

*[ Insert your sitemap diagram below (We will look at this part later so you can skip it or do it yourself by researching and consulting the lecture to assist you in creating it). ]*

## 5.6 Low-Fidelity Wireframes

Low-fidelity wireframes for the bakery website are shown in the box below.

Boxes and labels only; no colours or final content.

# 6. Technical Requirements

## 6.1 Hosting and Domain

Domain Name

www.sweetcrumbsbakery.co.za

Hosting

Afrihost Web Hosting

Approximate annual hosting cost: R1 200

Approximate domain registration: R180 per year

## 6.2 Languages and Frameworks

HTML

CSS

JavaScript
